The Challenges in Automotive Industry Supply Chain:

1. Leaner demand
2. Efficiency for new model development
3. Short product life cycle

Our solutions:

From manufacturing support, parts distribution and after-sales support

- **Inbound parts logistics for new vehicles:** Managing flows of components and sub-assemblies from Tier 1 and 2 suppliers for JIT delivery to OEM assembly plants. AOC provides parts consolidation, transportation and comprehensive manufacturing support, including kitting, sub-assembly, and milk run delivery. Throughout the process, you have complete part-level visibility.

- **Aftermarket parts distribution:** As a provider of warehouse-based logistics, AOC has the global infra-structure and expertise for distribution of aftermarket parts for the automotive industry. AOC provides inventory management, shipment consolidation and import/export management for manufacturers who need to distribute aftermarket parts and accessories on a worldwide basis.

Our services include:

- **Inbound logistics:**

Supplying domestic and international car production sites with all material necessary for efficient manufacturing

- **Production logistics:**

Warehousing, sub-assembly, kitting, pre-assembly of components and various forms of production line feeding, including just-in-time deliveries, just in sequence services and removal and processing of empty load units.

- **After-sales services:**

Complex distribution networks and warehouses ensuring dealers receive suitable support.

- **Packaging services:**

Returnable packing solution, temperature

Competitive Advantages

Let AOC's retail services be your differentiator

Supply chain visibility

Improved availability of replacement parts

Improved service quality

More accurate, timely inventory counts

Reduced shipment/sequencing errors

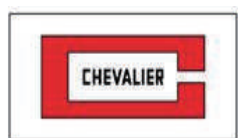

Improved inventory

Improved supplier response time

Reduced transportation costs
